e-mail: info@asap-architects.com

ASAP Architects Ltd, was set up in 2005 to compliment the main practice of Anthony Short and Partners to meet the ever increasing demand of smaller domestic extensions and small commercial projects, that do not require the extensive service offered by the parent company.

We can offer and provide a part or full service depending on the clients needs ranging from:-

Initial consultations and advice
On site surveys
Provision of as existing drawings
Sketch proposals
Kitchen and Bathroom design

Planning application submissions
Building regulation drawings
Full working drawings
Specification and schedule of works documents
On site inspection through to completion

Each job is unique and working closely with our clients we can offer a very competitive arrangement for providing one, or as many of the above services to ensure your project becomes reality.

We base all our drawings on CAD using a system called Drawing Express which enables us to provide a drafting service second to none. All our staff are qualified with membership of the Chartered Institute of Architectural Technologists.

Current jobs include:

- New pair of detached houses in Nottingham
- Extension and kitchen layout in Staffordshire
- Extension to provide additional living accommodation for a dependant relative in an old detached garage in Staffordshire
- Loft conversions in Derbyshire
- Internal alterations, extensions and repair of recently acquired dwelling in Staffordshire
- Garden room extensions in Derby and Staffordshire.

We would also be prepared to tender for the smaller developers/builders in design and build projects where projects are competitive but require attention to detail.

For further information please contact ASAP Architects Ltd on 01335 340890
